Sabeer TK

QA Tester | Manual & Automation Testing

sabeertksabeer@gmail.com | +91 9778376524 | LinkedIn

Profile Summary

QA Tester with hands-on experience in manual and automation testing, including test case design, defect tracking, and Selenium WebDriver automation with Java and TestNG. Background combines a Computer Science Engineering degree with structured testing training and 2 years in a technical, customer-facing role that sharpened root-cause troubleshooting and clear defect documentation. Comfortable across the STLC, from writing test scenarios to validating backend data with SQL and reporting bugs through JIRA.

Core Skills

- **Manual Testing:** Test Case & Test Scenario Design, Functional Testing, Regression Testing, Smoke Testing, STLC, Bug/Defect Reporting
- **Automation Testing:** Selenium WebDriver, Java, TestNG, Maven, JUnit, Cross-Browser Testing
- **API & Performance:** Postman (API Testing), JMeter
- **Database:** SQL (Queries, Data Validation)
- **Tools:** JIRA (Defect Tracking), Eclipse IDE, Git/GitHub
- **Other:** Cross-Functional Coordination, Attention to Detail, Time Management, Clear Written Documentation

Experience

Sutherland Global Services – Technical Support Associate Oct 2023 – Jan 2026
Kochi, Kerala

- Diagnosed and resolved account, access, and product issues for high daily ticket volumes, building strong root-cause analysis and structured troubleshooting skills directly transferable to defect investigation.
- Documented issues clearly and escalated unresolved cases following defined processes – equivalent to writing clear.
- Consistently met SLA targets and maintained high customer satisfaction scores while managing competing priorities under time pressure.

Luminar Technolab – Software Testing Specialist (Internship) Apr 2023 – Aug 2023
Kochi, Kerala

- Designed and executed manual and automated test cases for web applications, covering functional flows including login, search, add-to-cart, and checkout.
- Built automated test scripts using Selenium WebDriver and Java; used TestNG for test management, grouping, and assertion validation.
- Performed cross-browser testing and logged defects in JIRA with clear reproduction steps.
- Wrote SQL queries to validate backend data integrity against expected application behavior.
- Configured Selenium WebDriver, TestNG, and Maven to set up and run automation projects in Eclipse IDE.

Projects

Web Automation Testing – E-commerce & Social Media: GitHub Repository

- Built a Selenium WebDriver + Java + TestNG automation framework to test critical workflows (login, search, add-to-cart, checkout) across e-commerce and social media sites using dynamic XPath/CSS locators and TestNG assertions.
- Identified and documented bugs with clear reproduction steps and screenshots.

ShopKartIndia – Manual Testing Project: GitHub Repository

- Independently tested an e-commerce site end-to-end: authored a full test case document and bug reports.
- Produced a defect distribution report with supporting charts and a final test summary report.

Education

Bachelor of Technology, Computer Science Engineering Aug 2018 – Jun 2022
APJ Abdul Kalam Technological University, Kerala

Software Testing – Manual & Automation Apr 2023 – Aug 2023
Luminar Technolab, Kerala

Certifications

- NACTET – Autonomous organization under Govt. of India, New Delhi
- Internship on Cyber Security – ZIndot Technologies
- The Fundamentals of Digital Marketing – Google
